Bareboat charter sailing qualifications required:

- An international sailing certificate by at least one member of the crew, in English
- A second member of the crew is recommended to have adequate sailing experience

The sailing licenses are inspected and approved by the port authorities, according to the Greek regulations. Charterers should ensure to have the appropriate certifications before they arrive as they are the only responsible in case of any rejection of their certification -and therefore the approval to leave the port- by the authorities.

Yacht delivery is the charterer's confirmation that he/she takes full responsibility of the boat and its equipment as shown during check-in and also agrees that accepts the Terms & Conditions of the charter party. If the charterer encounters boat or equipment malfunctions/damages, these should be reported to the base manager or office of Eversails within 24 hours of the event, otherwise the base staff will act in accordance to the inventory list used during the check-in procedure.
